

## ***Important Updates to FSA Plan***

BBP Admin is excited to share some important updates to your FSA experience. The changes to your FSA are due to updates and extensions made by Congress when passing the latest COVID Stimulus bill.

### **2020 FSA Participants (All FSA Plans)**

If you participated in the 2020 FSA and have funds remaining, you now have until the last day of your 2021 plan year to use remaining funds.

### **2021 FSA Participants (All FSA Plans)**

Any participants in the 2021 FSA have until the last day of your 2022 plan year to use funds.

Any participants in the 2021 FSA can update their election at any time throughout the year. (These changes will be proactively based on your employer making the applicable changes in payroll.)

Any participants terminated from the FSA plan, for any reason, have until the end of the year to incur and claim any unused dollars that are verified as having been contributed.

### **2021 FSA DCAP Participants**

For 2020 and 2021 the cutoff age has been raised to include all dependents aged 13 or younger.

### **Over the Counter (OTC)**

A reminder that in 2020 the OTC restrictions were lifted so you can now purchase all OTC items WITHOUT a note from your Doctor.
